Laboratory 3 – week 5 and 6

TODAY:

You will continue working on/finish the following diagrams:

- Database diagram
- Class diagram
- Architecture diagram

Make the final decision on the technologies you are going to use! ☺

Implementation:

- Implement the ORM.
- Think about the GUI (create a diagram with how the interface will look where necessary)
- Start working on the functionality of the application

Please update your git repositories ☺

DEADLINE LAB 4:

- Database diagram
- Class diagram
- Architecture diagram
- ORM implementation
